

# Sunspeed Energy Systems

India Pvt. Ltd.

## Our Mission

We Save people money so they can live better.

## Our Vision

To create a better everyday life for many people.

## Our Purpose

We are bringing quality, safety, and sustainability to life.

## Our Goals

Sunspeed India mission- "Sustainable Energy Solutions for all. " We have started this journey to provide affordable, efficient, reliable solar solutions coupled with energy-efficient products.

## Corporate Ethics

Somewhere along the way, as we chase our goals, deadlines, targets, or simply our daily to-do lists, we tend to forget the real issues in the world outside our window. Recent developments compel us to cut across all boundaries and appeal to leadership to shake off the 'bigger-larger-higher' idea that has consumed business.

At **Sunspeed** India, trust is the only currency that can sustain a corporation through the turbulences over its lifecycle. In our experience, one of the most uncomplicated ways of seeding trust is through transparency because, at **Sunspeed**, we are delivering what we are saying.

The culture of **Sunspeed** is well organized and self-motivated. Our young and energetic have a high level of team spirit and enthusiasm.

## Profile

### Sunspeed Logo

The "Sunspeed" in our logo stands for "Sun & Speed." It has other meanings like "The Sun". A star around which Earth and other solar system components revolve. The Sun is the source of an enormous amount of energy a portion of which provides Earth with the light and heat to support life.

Speed is a scalar quantity that refers to "how fast an object is moving," such as Speed of Work, Speed of Delivery, etc. Speed can be understood as the rate at which an object covers the distance. A fast-moving object with a high speed covers a large distance in a short amount of time, where as an object with no movement has a zero speed. In Middle English, for a fortunate person, speed can mean 'success,' 'good fortune,' 'smooth progress,' or modern meaning 'swiftness'.

## About Us

**Sunspeed India** is a world-class Solar & Electronic Products, Home Appliances & Devices manufacturing company with a mission to develop and propagate solar energy to produce energy for daily use. Our venture is based on a simple and powerful idea of converting natural resources into profitable & environment-friendly energy.
